

È un' innovativa creazione di IAMdesign che ti permette di integrare armonicamente l'illuminazione alle architetture più svariate.

Molto utile perchè permette di illuminare una scala o una passeggiata senza dover necessariamente illuminare tutto un ambiente.

Aumenta la tua sicurezza senza aumentare i tuoi costi grazie ai LED di ultimissima generazione ad alto risparmio energetico

It is an innovative creation of IAMdesign that allows you to harmoniously integrate the lighting to various architectures.

Very useful because it allows you to enlighten a stairway or a walk without having to light up an entire room.

Increase your security without increasing your costs thanks to LED of the latest generation with high energy savings

info

Utilizzare una pinza per fare pressione sia dall'alto che nel basso dei connettori per unire le strisce di Led

Use a clamp to apply pressure from above and below the connectors to join the strips of Leds

Schema di montaggio
Installation Diagram

Il semplicissimo sistema di led railing utilizza dei braccetti di sostegno di facile fissaggio al tubo scanalato.

The simple LED railing system employs supporting brackets that can be easily attached to the slotted tube. To attach the strips led to the slotted handrail

Descrizione Description	
ELED0006	Per attaccare le strisce Led al corrimano scanalato To attach the strips led to the slotted handrail

①

Applicare l'articolo ELED0006 all'interno del tubo scanalato grazie all'utilizzo del collante adesivo che si trova in dotazione. Posizionare i braccetti di fissaggio ad una distanza massima di 400 mm.

Apply the article ELED0006 inside the slotted tube using the supplied adhesive glue. Place the locking brackets at a maximum distance of 15 3/4 "

②

Per un fissaggio ancora più sicuro è possibile utilizzare delle viti M3 ancorate direttamente al corrimano scanalato. Ind.i.a. consiglia di eseguire un pre-foro prima di utilizzare la vite M3

For a more secure fixing you can use the M3 screws directly anchored to the slotted handrail. Ind.i.a. recommends to make a pre-drilled hole before using the M3 screw

③

Applicare le luci Led al braccetto facendo una leggera pressione.

Apply the LED lights to the bracket by a slight pressure.
